

STAT

16 February 1956

MEMORANDUM FOR: Director of Administration, Project AQUATONE
FROM: Communications Officer, Project AQUATONE
SUBJECT: Wire Systems Personnel

1. Listed hereunder are the personnel currently assigned to the Wire Systems Section:

2. The above-named personnel are those individuals who service, repair and maintain the Teletype equipment for the Office of Communications throughout the Agency. It is the responsibility of the Wire Systems Section to provide 24-hour service to the various users of Teletype equipment on a seven day per week basis.

3. It is anticipated that from time to time it will be necessary that one or more of the individuals listed above have access to the Operations Signal Center, H Street, and to the Weather Central Signal Center at Suitland for the purpose of maintenance or repair of the equipment associated with those Centers.

4. It is impossible to narrow this list to one or two individuals as these individuals are trick shift workers.

5. Project clearance for these individuals is not required, as they could have access to the Centers on an "escorted basis" when the need arises.
